MGT317: Disaster Management For Public Services

ERMA Event #1005702

Arizona Department of Environmental Quality
1110 W. Washington Street
Phoenix, AZ 85007

August 3 - 4, 2016
8am - 5pm each day

*** Register On-Line through ERMA at www.erma.az.gov using the above event number ***

Description: Presented by the Texas A&M Engineering Extension Service (TEEX) brings together public service agencies who are expected to identify and mitigate hazards, and who plan and manage disaster response and recovery efforts within their jurisdictions. Participants will be introduced to natural and man-made disasters to which public services may be vulnerable. This course also explains emergency planning and management and the regulatory systems, documents, and directives that guide disaster response. Response factors, such as hazard control zones, resources, and responder safety are also discussed. Recovery considerations, such as funding assistance and demobilization, are also explained.

Prerequisites: It is recommended that participants successfully complete the following independent study courses prior to class.

- [IS-100.PWB: Introduction to the Incident Command System for Public Works](#)
- [IS-200.B: ICS for Single Resources and Initial Action Incidents](#)
- [IS-700.A: National Incident Management System \(NIMS\) An Introduction](#)
- [IS-800.B: National Response Framework, An Introduction](#)

Target Audience: Public Works, Utility Providers, Emergency Management, Fire Service, Law Enforcement, Emergency Medical Service, Public Health, and Hazardous Materials Response

Registration: *Participants should enroll no later than 3-weeks prior to the start of the course via the ERMA registration system (www.erma.az.gov). If you require registration assistance, please contact our office at (602) 464-6225 or training@azdema.gov.*

Costs: Training is provided at no cost to eligible jurisdictions. DEMA will not provide any overtime, backfill, or travel-related reimbursements for this course.

FEMA Requirement: In addition to enrolling through ERMA, students must also have a FEMA Student Identification (SID) Number to participate in training through FEMA training providers. Visit <https://cdp.dhs.gov/femasid/> to obtain a FEMA SID. ***Students will be required to have their FEMA SID on the first day of this class.***

For additional information or registration assistance, please contact the **DEMA Training Office** - (602) 464-6225

DEMA reserves the right to deny attendance if student eligibility cannot be verified through information provided by the event host, or through information in your ERMA account

Course dates and location are subject to change. Check your ERMA account prior to attending for the most current status of this event

DISASTER MANAGEMENT FOR PUBLIC SERVICES

DISASTER MANAGEMENT FOR PUBLIC SERVICES

MGT-317

The Disaster Management for Public Services provides a unique opportunity for public service professionals to extend their knowledge and skills necessary for protecting their communities and infrastructure from potential or actual threats. During this course, participants work together in multidisciplinary teams to apply the course information with their professional experience in a variety of hands-on, small group activities, and disaster scenarios.

This course brings together emergency management personnel who are expected to identify and mitigate hazards, and plan and manage disaster response and recovery efforts within their jurisdictions. Representatives from public service agencies, fire services, law enforcement, emergency medical services, emergency planning, public health, and hazardous materials response organizations are encouraged to attend.

The course introduces natural and man-made disasters to which public services may be vulnerable. This course also explains emergency planning and management and the regulatory systems, documents, and directives that guide disaster response. Response factors, such as hazard control zones, resources, and responder safety are also discussed. Recovery considerations, such as funding assistance and demobilization, are also explained.

Topics:

- Threats to Public Services
- Mitigation
- Disaster Planning and Management
- Disaster Response
- Disaster Recovery
- Public Information
- Communication
- Facilities management
- Parks and recreation
- Solid waste
- Street and road maintenance
- Traffic and transportation
- Utilities (water, wastewater, electric, gas, and telephone)

Training Level: Management and Planning

Venue: Your Jurisdiction

Course Length: 2 days (14 PDHs)

Participant Audience:

- Disaster Management
- Public Works
- First Responders
- Law Enforcement Officers
- Building Inspection

Class Size: Maximum is 30 participants.

Registration for each course will be processed by the host city.

Continuing Education Units: 1.4 CEUs

This course carries CEUs under IACET.

Prerequisites/Recommended Training:

There are no prerequisites for this course. Participants are encouraged to have successfully completed IS-100PWb, IS-200, IS-700 and IS-800. These courses can be found online at:

<http://training.fema.gov/IS/NIMS.asp>.
