

I'm Helping Little Lungs Breathe Easier

- I support my school's No Idling Zone.
- I reduce idling whenever possible by turning off my engine while waiting.

There's Something in the Air

Help Clean the Air: Don't Idle

Breathe Easier

Vehicle exhaust is bad for everyone's health, but it especially affects children who breathe more and at a faster rate than adults.

Save Money

Turning off the engine and restarting it uses less gas than letting it idle for more than 30 seconds, saving you money! Idling also causes twice the wear and tear on engines than driving at regular speeds.

Do Your Share for the Air

Vehicle idling creates unnecessary pollution. Each minute of idling emits more smog-forming emissions into the atmosphere, reducing air quality.
