Subject: Best Available Retrofit Technology Determination  
Abitibi Consolidated, Snowflake Division

Dear Ms. Wrona:

Reference is made to your letter dated July 13, 2007 regarding Best Available Retrofit Technology (BART) eligibility for Power Boiler No. 2 for Abitibi Consolidated, Snowflake Division (Abitibi). Abitibi has decided to conduct a full BART analysis for Nitrogen Oxides and Sulfur Dioxide for Power Boiler No. 2 in accordance with BART guidance EPA promulgated in the Federal Register Volume 70, Number 128, on Wednesday, July 6, 2005. Abitibi is planning to submit the full BART Analysis to ADEQ by December 14, 2007.

Abitibi will work with your staff in the determination of the best available retrofit technology for Power boiler No. 2 and associated visibility impacts.

If you have any questions regarding this letter, please do not hesitate to contact Prabhat Bhargava of CH2M HILL at (480) 377-6211. I can be reached at (928) 536-9464.

Sincerely,

Arthur "Skip" Hellerud  
Manager of Environmental & Technical
