

# Green Valley Forecast

**NOTICE:** As part of a systematic approach to providing Arizona residents with the most up-to-date air quality information and forecasts, ADEQ will issue a five-day [Tucson area air quality forecast](#). The forecast will be issued Monday through Friday, beginning on Monday, September 18, 2017. Part of this new process will be including Green Valley in the Tucson area forecast. As a result, the air quality forecast specific to Green Valley will terminate after Friday, September 15, 2017.

To ensure you continue receiving the forecast for the Tucson area, sign-up for the Tucson area GovDelivery at the following link: <http://bit.ly/2jmoJSc> (Once you enter your e-mail information on the Subscription Topics, click "Air Quality Forecasts and Advisories" and then select "Tucson Area Air Quality Forecast"). If you have any question please contact:
