AD NO. 8159502

Request for Public Comments on Exceptional Events in the State of Arizona

In 2005, Congress identified a need to account for events that result in exceedances of the National Ambient Air Quality Standards (NAAQS) that are exceptional in nature (e.g., not expected to reoccur or caused by acts of nature beyond man-made controls.) In response, EPA promulgated the Exceptional Events Rule (EER) to address exceptional events in 40 CFR Parts 50 and 51 on March 22, 2007 (72 FR 13560). On May 10, 2013, EPA released interim guidance documents to State, tribal and local air agencies for review. These guidance documents clarify key provisions of the 2007 EER in response to questions and issues that have arisen since the rule was promulgated. The EER allows for states and tribes to "flag" air quality monitoring data as an exceptional event. If flagged, these data can be excluded from consideration in air quality planning if EPA concurs with the demonstration submitted by the flagging agency documenting that all procedural and technical requirements have been met.

Pursuant to 40 CFR 50.14(c)(3)(i), the Arizona Department of Environmental Quality (ADEQ) is soliciting comments on its final demonstrations of events that have caused elevated concentrations of PM10 and PM2.5 during 2011 through 2013 across Arizona. The locations and specific dates in question are listed in the table below. ADEQ has decided to flag these episodes based on these analyses. A copy of the demonstrations is available for review beginning Friday, February 7, 2014 on the ADEQ website at www.azdeq.gov/environ/air/plan/nee.html. Interested parties can submit written comments throughout the comment period which will end at 5:00 p.m. on Saturday, March 8, 2014. Any comments received will be responded to and forwarded to EPA with the final demonstrations.

Area	Pollutant	Exceptional Event Date
Ajo	PM10	April 8, 2013
Douglas	PM10	April 8, 2013
Hayden		
Old Jail	PM10	April 8, 2013
Nogales	PM10	April 8-9, 2013
Greater Phoenix Area	PM10	April 8, 2013
Rillito	PM10	February 19, 2011
		May 2, 2011
		November 4, 2011
		May 9, 2012
		May 23, 2012
		April 8-9, 2013
