

## **Arizona Regional Haze State Implementation Plan Contents**

### **Part A. Base SIP for 16 GCVTC Class I Areas Under 40 CFR 51.309**

Executive Summary

Table of Contents

List of Figures

List of Tables

List of Exhibits

1. Introduction (Why Are We Here)
2. Regulatory Background And History
  - 2.1. 1977 Clean Air Act (CAA 169A)
    - 2.1.1.PSD and Visibility Protection Program
    - 2.1.2.National Visibility Goal
    - 2.1.3.Reasonable Progress
    - 2.1.4.Best Available Retrofit Technology
  - 2.2. 1980 Visibility Protection Regulations For Specifically Attributable Impairment
  - 2.3. 1990 Clean Air Act (CAA 169B)
    - 2.3.1.Regional Haze
    - 2.3.2.Visibility Transport Commissions
    - 2.3.3.Grand Canyon Visibility Transport Commission (GCVTC)
  - 2.4. 1991 GCVTC
  - 2.5. 1997 Western Regional Air Partnership (WRAP)
  - 2.6. 1999 Regional Haze Rule
    - 2.6.1.40 Changes for Specifically Attributable Impairment
    - 2.6.2.40 National Program Requirements (40 CFR 51.308)
    - 2.6.3.40 Optional Program GCVTC States (40 CFR 51.309)
  - 2.7. Arizona SIP Development Process
    - 2.7.1.Stakeholder Workgroup Recommendation on 308/309 Options
    - 2.7.2.Arizona Legislation to Support SIP
    - 2.7.3.Stakeholder-based Development Process for SIP
3. Regional Haze Transport and Planning Processes
  - 3.1. Interstate Transport
  - 3.2. GCVTC
  - 3.3. WRAP
4. Mandatory Federal Class I Areas Of Interest
  - 4.1. GCVTC Class I Areas
    - 4.1.1.Arizona Class I Areas
    - 4.1.2.Other Class I Areas Outside Arizona
  - 4.2. Additional Class I Areas Of Interest
    - 4.2.1.Additional Arizona Class I Areas
    - 4.2.2.Other Class I Areas Outside Arizona
5. Current Visibility Conditions

## **Arizona Regional Haze State Implementation Plan Contents**

- 5.1. How Is It Measured
- 5.2. How Do Aerosols Get Formed From Emitted Pollutants
- 5.3. Identification Of 5-Year Representative Baseline Period
- 5.4. What Are The Current (Baseline) Conditions
  - 5.4.1. Annual Average
  - 5.4.2. Best 20%
  - 5.4.3. Worst 20% (By Light Extinction/DV)
- 5.5. What Are The Aerosols Contributing To Visibility Impairment
  - 5.5.1. Annual Average
  - 5.5.2. Best 20%
  - 5.5.3. Worst 20% (By Aerosol Species)
- 5.6. Characteristic Similarities/Differences Between Class I areas
  - 5.6.1. Group I
  - 5.6.2. Group II Etc
6. Natural Sources Of Visibility Impairment
  - 6.1. Natural Source Characteristics
  - 6.2. Estimated Contribution of Natural Sources To Aerosol Mass
    - 6.2.1. Annual Average
    - 6.2.2. Best 20%
    - 6.2.3. Worst 20% (By Aerosol Species)
  - 6.3. Estimated Contribution Of Natural Sources To Light Extinction/DV
    - 6.3.1. Annual Average
    - 6.3.2. Best 20%
7. Anthropogenic Sources Of Visibility Impairment
  - 7.1. Contributions To Emitted Pollutants By Source Category
  - 7.2. Contributions from Extra-territorial Sources
  - 7.3. Aerosol Contribution From Man-Made Sources
  - 7.4. Light Extinction Contribution from Man-Made Sources
8. Best Available Retrofit Technology
  - 8.1. Inventory of Sources
  - 8.2. Identification of BART
  - 8.3. Schedule for NOX/PM BART for GCVTC Class I areas
  - 8.4. Demonstration for SO2 BART in Milestones at GCVTC Class I areas
9. Long-Term Strategy For Reasonable Progress for 16 GCVTC Class I areas
  - 9.1. Base Components Required By CAA Other Than Reg. Haze
    - 9.1.1. Non-Attainment SIPs
    - 9.1.2. Maintenance SIPs
    - 9.1.3. NESHAPS/MACT Standards
    - 9.1.4. New Source Review / PSD Program
    - 9.1.5. Federal Control Requirements (Vehicles, Special Programs)
  - 9.2. Regional/State-Wide Strategy Components Under 309
    - 9.2.1. Clean Air Corridors
    - 9.2.2. Stationary Sources Of Sulfur Dioxide
    - 9.2.3. Mobile Sources

## **Arizona Regional Haze State Implementation Plan Contents**

- 9.2.4. Fire Emission Sources
- 9.2.5. Road Dust Management Programs
- 9.2.6. Pollution Prevention Programs
- 9.2.7. Other GCVTC Recommended Options
- 9.3. Class-I Specific Strategies Under 309
  - 9.3.1. (By Class I area) In-And-Near Class-I Area
  - 9.3.2. (By Class I area) In-And-Near Class-I Area
- 10. Emission Baseline and Projections
  - 10.1. Sources of Information for Baseline Emissions
    - 10.1.1. Base Year Emission Inventory
    - 10.1.2. Projected Source Sector Demand Changes
    - 10.1.3. Technology of New Sources
    - 10.1.4. Assumptions Regarding Retirement of Existing Sources
    - 10.1.5. Sources of Information for Non-Arizona Emissions
  - 10.2. Baseline Emission Projections
    - 10.2.1. Emissions from Arizona Sources
    - 10.2.2. Emissions from Other States in Modeling Region
    - 10.2.3. Emissions from Mexico and Off-Shore Shipping
  - 10.3. Emission Projections from Long-term Strategy
    - 10.3.1. Emissions from Arizona Sources
    - 10.3.2. Emissions from Other States in Modeling Region
    - 10.3.3. Emissions from Mexico and Off-Shore Shipping
- 11. Projection of Visibility Improvement Resulting from Long-Term Strategy
  - 11.1. Projection of Visibility Conditions Through 2018
  - 11.2. Changes Expected from Arizona Long-Term Strategy
  - 11.3. Contribution from Sources Outside Arizona
- 12. Interstate Coordination and Planning
- 13. Other Plans and Reporting Requirements
  - 13.1. Monitoring Plan (NOTE: Address both 309 and 309(g))
  - 13.2. Assessment of NOX and PM Emission Control Strategies
  - 13.3. Summary of Pollution Prevention Programs
  - 13.4. Summary of Renewable Energy Status and Progress Report
  - 13.5. Summary of Implementation Status of Other GCVTC Recommendations
- 14. Periodic Progress Reports and Future Work
  - 14.1. 2008 Status update and NOX/PM BART
  - 14.2. 2013 Status and SIP Update
  - 14.3. 2018 Status and New SIP under 308
- 15. Public Participation and Review Process

## **Arizona Regional Haze State Implementation Plan Contents**

### **Part B. SIP Supplement for Additional Class I Areas Under 40 CFR 51.309(g)**

16. Declaration Of Treatment For Additional Class I Areas Under 309(g)
17. Estimates Of Baseline Visibility Conditions, Natural Conditions And Presumptive RP Goals For Best And Worst 20% Average Days
  - 17.1. 5-Year Period Of Representative Data
  - 17.2. Baseline Conditions
  - 17.3. Natural Conditions
  - 17.4. Presumptive Rate Of Progress Goal For Each Class I Area
  - 17.5. RP Presumptive Target For End Of Planning Cycle (2018)
  - 17.6. Table - Summary Of Above For Best/Worst 20% By Area
18. Projection Of Improvement From Base 309 LTS For 16-GCVTC Areas on Additional Class I areas
19. Identification Of Class-I Areas With Greater Progress Than Presumptive RP Goals That Require No Further Analysis.
20. Identification Of Class-I Areas Not Meeting Presumptive RP Goals From GCVTC LTS Requiring Additional Analysis
21. Detailed Review of Additional Analysis Requirements (For Each Class-I Area Not Meeting Presumptive RP Goals)
  - 21.1. Analysis Requirements for {Class-I area 1}
    - 21.1.1. Review Of Most Significant Pollutants Of Interest
    - 21.1.2. Review Of Micro-Inventory In & Near Class-I Area
    - 21.1.3. Review Of Potential Sources Of Visibility Impairment
    - 21.1.4. Identification Of Control Options To Be Assessed
  - 21.2. Analysis Requirements for {Class-I area 2...etc}
    - 21.2.1. Review Of Most Significant Pollutants Of Interest
    - 21.2.2. Review Of Micro-Inventory In & Near Class-I Area
    - 21.2.3. Review Of Potential Sources Of Visibility Impairment
    - 21.2.4. Identification Of Control Options To Be Assessed
22. Assessment Of Additional Measures For RP At Non-GCVTC Class I Areas
  - 22.1. Assessment Criteria For Reasonable Progress
  - 22.2. Review/Assessment of 308(d)(3)(v) Source Sectors
  - 22.3. Assessment of Cost Effectiveness of Control Options
  - 22.4. Comparison/Recap of Options
  - 22.5. Supplemental Measures included for Reasonable Progress
23. Best Available Retrofit Technology
  - 23.1. Inventory of Sources
  - 23.2. Identification of BART
  - 23.3. Schedule for NOX/PM BART for Additional Class I areas
  - 23.4. Demonstration for SO2 BART in Milestones at Additional Class I areas
24. Long-Term Strategy Supplement for Additional Class I areas Reasonable Progress Addressed under 309(g)
  - 24.1. Regional/State-Wide Strategy Components Under 309(g)

## **Arizona Regional Haze State Implementation Plan Contents**

- 24.1.1. List Components As Identified
- 24.1.2. List Components As Identified (etc)
- 24.2. Class-I Specific Strategies Under 309(g)
  - 24.2.1. (By Class I area) In-And-Near Class-I Area
  - 24.2.2. (By Class I area) In-And-Near Class-I Area
- 25. 309(g) Emission Baseline and Projections
  - 25.1. Sources of Information for 309(g) Baseline Emissions
    - 25.1.1. Base Year Emission Inventory
    - 25.1.2. Projected Source Sector Demand Changes
    - 25.1.3. Technology of New Sources
    - 25.1.4. Assumptions Regarding Retirement of Existing Sources
    - 25.1.5. Sources of Information for Non-Arizona Emissions
  - 25.2. Baseline 309(g) Emission Projections Including 309(d) Components
    - 25.2.1. Emissions from Arizona Sources
    - 25.2.2. Emissions from Other States in Modeling Region
    - 25.2.3. Emissions from Mexico and Off-Shore Shipping
  - 25.3. Emission Projections for 309(g) Long-term Strategy Supplement
    - 25.3.1. Emissions from Arizona Sources
    - 25.3.2. Emissions from Other States in Modeling Region
    - 25.3.3. Emissions from Mexico and Off-Shore Shipping
- 26. Projection of Visibility Conditions from Combined 309 and 309(g) Long-Term Strategies
  - 26.1. Projection of Visibility Conditions Through 2018
  - 26.2. Changes Expected from Arizona Long-Term Strategy
  - 26.3. Contribution from Sources Outside Arizona
- 27. Interstate Consultation and Coordination
- 28. Establishment of final RP Goals for Additional Class I areas
- 29. Demonstration that Goals Represent Reasonable Progress under 309(g)
- 30. Periodic Progress Reports and Future Work
  - 30.1. 2008 Status update and NOX/PM BART
  - 30.2. 2013 Status and SIP Update
  - 30.3. 2018 Status and New SIP under 308
- 31. Public Participation and Review Process for 309(g) Supplement

## **Arizona Regional Haze State Implementation Plan Contents**

### **Regional Haze SIP Appendix and TSD**

{Numbering system - {Appendix or Technical Support Document (A or T) SIP Part (A or B) - Section (#) - Sequence (A,B,C,D,... )}  
{To be organized into Volumes for actual SIP Submittal, with AA- and AB- set as Appendix, and TA- and TB- set as Technical Support Document}

#### **PART A APPENDIX/TSD - BASE 309 SIP FOR 16-GCVTC Class I Areas**

AA-2.1-A - Clean Air Act Amendments of 1977 - Section 169A - Visibility Protection  
AA-2.3-A - Clean Air Act Amendments of 1977 - Section 169B - Regional Haze

AA-2.4-A - GCVTC Recommendations - June 10,1996  
AA-2.4-B - WGA Letter to EPA on Implementation of GCVTC - July 28, 1998

AA-2.6-A - Federal Register July 1, 1999 - Protection of Visibility - Final Rule  
AA-2.6-B - Federal Register (?) - GCVTC Annex - Final Rule  
AA-2.6-C - Complete Code of Federal Regulation - 40 CFR 51.300-309

AA-2.7.1-A - Arizona Stakeholder Workgroup Recommendation on 308/309 Options -  
November 7, 2001  
AA-2.7.2-B - Arizona Statutory Authority for Regional Haze - ARS Sec. 49-411  
AA-2.7.3-C - Work Plan for Arizona Regional Haze SIP

AA-4.1-A - GCVTC Class-I Areas addressed in Base 309 RH SIP (For each area, 1 pg  
summary of site/setting/location, 1 pg detail map)  
AA-4.2-A - Additional Class-I Areas of Interest Addressed under 309(g) (For each area,  
1 pg summary of site/setting/location, 1 pg detail map)

TA-5-A - Basis for Selection of Representative Monitoring Data for Class-I Areas  
TA-5-B - Current Visibility Conditions in Class-I Areas

TA-6-A - Natural Sources Contributing to Visibility Impairment  
TA-6-B - Estimates of Natural Visibility Conditions

TA-7-A - Anthropogenic Sources of Visibility Impairment  
TA-7-B - Estimates of Visibility Impairment Caused by Anthropogenic Emissions

TA-8.1-A - Inventory of Regional Haze BART Eligible Sources  
TA-8.2-A - Regional Haze BART Emission Limits for Sources  
AA-8.3-A - Schedule for Addressing NOX/PM BART for GCVTC Class I areas  
TA-8.3-A - Demonstration of SO2 BART Equivalency in Milestones for GCVTC Areas

## **Arizona Regional Haze State Implementation Plan Contents**

TA-9-A - Supporting Documentation for Long-Term Strategy (a separate subsection corresponding to the LST Section number.)

TA-10-A - Supporting Documentation for Emission Inventory and Projections

TA-11-A - Regional Modeling of Visibility Conditions and Analysis of Contributions

TA-12-A - Documentation of Interstate Consultation for GCVTC Class-I Areas

AA-13.1-A - Monitoring Plan

AA-13.2-A - Assessment of NOX and PM Emission Control Strategies for GCVTC

AA-13.3-A - Report on Pollution Prevention Programs

AA-13.4-A - Report on Renewable Energy Status and Progress Report

AA-13.5-A - Report on Implementation Status of Other GCVTC Recommendations

AA-14-A - Work Plan for 2008-2018 RH SIP Status Reports and Updates

AA-15-A - Documentation of Public Participation and Review Process for RH SIP

### **PART B APPENDIX/TSC - Supplement to Address Additional Class I Areas**

TB-17-A - Analysis of Reasonable Progress Goals to Achieve Natural Conditions by 2064

TB-18-A - Projected Visibility Improvement from Base 309 Long-Term Strategy

TB-21.1-A - Analytical Requirements for RP Determination for {Class I area #1}

TB-21.2-A - Analytical Requirements for RP Determination for {Class I area #2 ... etc}

AB-22.1-A - Assessment Criteria for Reasonable Progress Determination

AB-22.2-A - Review and Assessment of 308(d)(3)(v) Listed Sources

AB-22.3-A - Assessment of Control Options Identified in Section 21

AB-22.4-A - Inter-comparison of All Control Options Examined

AB-22.5-A - Basis for Selection of Control Options Included in Long-Term Strategy

TB-23-A - Supplemental BART Assessment for Additional Class-I Areas

AB-24-A - Long-Term Strategy Supplement for Additional Class-I Areas

TB-25-A - Emission Projections from Long-Term Strategy Supplement

TB-26-A - Projection of Visibility Improvement from Long-Term Strategy Supplement

AB-27-A - Documentation Related to Inter-state Consultation on RP Goals

AB-28-A - Reasonable Progress Goals for Additional Class-I Areas

AB-29-A - Demonstration Goals Represent Reasonable Progress Under 309(g)

AB-31-A - Documentation of Public Participation and Review Process for 309(g)
