 Facility Representative(s): \_\_\_\_\_ ADEQ Representative (s): \_\_\_\_\_  
 Inspection Report presented to: \_\_\_\_\_  
(Name & Title) (Signature)

Yes	No	N/A	P*	40 CFR § 279.21 & ARS § 49-801 et al. <b>Hazardous Determination:</b>	Comments:
				Does the generator mix used oil and hazardous waste?	
				If yes, is it managed in accordance with 40 CFR § 279.10(b)?	
				Is the generator's oil tested for total halogens (less than 1000 ppm) prior to off-site shipment?	
				<b>40 CFR § 279.21 &amp; ARS § 49-801 et al. Used Oil Storage:</b>	
				Types of units for used oil storage.	
				Are the tanks or containers in good condition?	
				Are the tanks or containers leaking?	
				Are the tanks, containers, and fill pipes used to transfer used oil to underground storage tanks labeled with the words "used oil?"	
				Are there any releases of used oil to the environment?	
				If yes, has the generator: Stopped the release? Contained the released used oil? Cleaned up and properly managed the released used oil or other contaminated materials?	
				<b>40 CFR § 279.23 &amp; ARS § 49-801 et al. On-Site Burning in Space Heaters:</b>	
				Does the used oil generator burn used oil in a used oil space heater?	
				If yes, does the generator: Only use used oil that the owner or operator generates or used oil received from a house-hold do-it-yourselfer?	
				Use a heater designed to have a maximum capacity of not more than 0.5 BTU per hour?	
				Vent combustion gases from the heater to the ambient air?	
				<b>40 CFR § 279.24 &amp; ARS § 49-801 et al. Off-site Shipments:</b>	
				Does the Used Oil Generator use a used oil transporter with an EPA identification number for Off-Site Shipment?	
				Does the Used Oil Generator transport less than 55-gallon to a used oil collection site or an aggregation point owned by the same generator?	
				Does the Used Oil Generator use a contractual tolling agreement?
