Review Comments

Type of Review:	Review of 7-14-08 draft rule text	Project Manager:	Matt Morales, E.I.T.
Date:	07-31-08	Email: mmorales@ci.flagstaff.az.us	Phone: 928-527-9843

<i>Item No.</i>	<i>Section</i>	<i>COMMENTS</i>
1	GENERAL COMMENT	How will the group be assured that the comments from this period will be to be considered and addressed before the rule is published? It seems to me that we will have to wait until the rules are published after 8-15-08 to see “what makes it in and what doesn’t”. How will we know what the rest of the group has submitted for comments during this review session?
2	R18-13-603 D	Doesn’t AZPDES process cover runoff and runoff for most of the facilities of concern (over 5 acres)?
3	R18-13-604 B	Re: “an adequate water supply and fire fighting equipment “-We don’t currently have a water supply for fire fighting purposes. The nearest water main to our facility is approximately 3 miles away. It would cost the facility approximately \$250,000 for the necessary upgrade to our facility.
