

Re: Integrated Solid Waste Regulatory Framework: Comments for Review  
From: Tom [Tkistler@cox.net]  
To: Martha L. Seaman  
7/28/08

Greetings, Martha

Attached, please find comments on the proposed Solid Waste Rules. The format for those comments is a brief citation from the red-line document used in the final Stakeholder Workshops, followed by the comments in bold.

One additional comment:

**It does not require a Registered Professional Engineer to certify closure plans, etc. In Title 49 rules it states that other competent professionals may make those certifications as well. I would like that language to remain in these rules.**

If you would like to discuss these comments further, please e mail me or call me at 602.327.4473

.

Thank you for the opportunity to comment.

Sincerely,

Thomas Kistler, CHMM
