I certify that, to my knowledge, the information supplied on both pages of this application is true and accurate, and that I am authorized to sign this application. I further agree to operate this used oil collection center in accordance with the Arizona Revised Statutes, Title 49, Chapter 4, Article 7, Management of Used Oil.

Name of Authorized Person	Title
Signature of Authorized Person	Date

APPLICATION FOR USED OIL COLLECTION CENTER (cont.)

USED OIL COLLECTION CENTER QUESTIONNAIRE

Number of storage units (tanks, containers, drums, etc.) at this facility in which used oil is accepted, aggregated, or stored: _____

Describe each storage unit (size/volume, aboveground/belowground, construction material, location, access, or other pertinent information) in the space below. If additional space is needed, attach a sheet of paper.

Circle one

1. Yes No I understand this facility can accept used oil from both used oil generators and household do-it-yourselfer generators.
2. Yes No I understand the maximum size of any individual shipment accepted by this facility from a used oil generator cannot exceed 55 gallons.
3. Yes No I understand the storage unit(s) at this facility must be maintained in good condition (no severe rusting, apparent structural defects or deterioration).
4. Yes No I understand the storage unit(s) at this facility cannot exhibit any signs of visible leaks.
5. Yes No I understand the aboveground storage unit(s), and the fill pipe(s) to the underground storage unit(s), at this facility must be labeled or marked clearly with the words "Used Oil."
6. Yes No I understand the used oil collected at this facility must be transported from the facility by a transporter with an EPA ID number.
7. Yes No In the event of a release of used oil to the environment, I understand the owner(s) and/or operator(s) of this facility are required to respond to the release in a timely fashion, by abating the release, containing the released used oil, cleaning up the released used oil, properly managing the released used oil and any materials generated as a result of the aforementioned activities, and if necessary for the continued use of the storage units, repairing or replacing any leaking storage unit components prior to returning the storage units to service.
8. Yes No I understand this facility, and its owners and operators, are subject to all the applicable Spill Prevention, Control, and Countermeasures under 40 CFR 112.
