Re: Arizona Superfund Program List

Attached, please find an updated version of the Arizona Superfund Program List (ASPL). The ASPL has been updated to add the 7th Avenue and Bethany Home Road site, which was listed on the Water Quality Assurance Revolving Fund (WQARF) Registry on August 25, 2004.

Prior to July 5, 2000, the ADEQ Superfund Programs Section (SPS) published a list of sites entitled “Arizona CERCLIS Information Data System” (ACIDS). The ACIDS list has been replaced as an active list by the ASPL. The ACIDS list has been archived and is no longer being distributed or updated.

The ASPL is more representative of the sites within the jurisdiction of the SPS since April 1997 (the date of the new WQARF statute). The list, which is considered an interim measure until a more complete data system is developed, is comprised of the following elements:

- 1) WQARF Registry Sites;
- 2) National Priorities List (NPL) sites; and
- 3) Department of Defense (DOD) sites requiring SPS oversight.

A WQARF site is defined in statute as the “geographical areal extent of contamination” (Arizona Revised Statutes § 49-281.14).

With respect to the ASPL, the “Program Status” column is intended to provide information on historical and current activities under the jurisdiction of the program. Please find below a summary of “status” related terminology:

- C The term “ON REGISTRY” means that a PI has resulted in inclusion of a site on the WQARF Registry.
- C The term “ACTIVE” means that the Department of Defense (DOD) is presently addressing the site.
- C The term “ON NPL” means that a site has been listed on the CERCLA National Priorities List (NPL).

Northern Regional Office
1515 East Cedar Avenue • Suite F • Flagstaff, AZ 86004
(920) 779-0313

Southern Regional Office
400 West Congress Street • Suite 433 • Tucson, AZ 85701
(520) 628-6733

The ASPL and Arizona Superfund Program Descriptive Key are attached to this memorandum. The ASPL will be updated periodically by the ADEQ Site Assessment Unit.

If you have any comments or general questions concerning this list, please contact Jeff Littell, Site Assessment Unit Manager, at (602) 771-4340, or toll-free in Arizona at 1 (800) 234-5677, ext. 771-4340. For information on Arizona's Superfund Program, including site-specific information, please call the ADEQ Superfund Information Hotline at (602) 771-4360 or toll-free in Arizona at 1 (800) 234-5677, ext. 771-4360. Also, future updates of this list as well as site project summaries can be accessed on the ADEQ web site: <http://www.adeq.state.az.us/waste/sps>.

Attachments: Arizona Superfund Program Descriptive Key
Arizona Superfund Program List

Arizona Superfund Program Descriptive Key

Site Name:	The official name of the site. Asterisks (**) next to the site indicate that it is expected to be renamed.
Latitude:	The estimated latitude of the site. For more information, see “Latitude” below.
Longitude:	The estimated longitude of the site. For more information, see “Longitude” below.
City:	The primary city in which the site falls within. For more information, see “City” below.

PROGRAM STATUS

Program:	Program Status:	Status Date:	Status Comments:
General Category for a site based on statutory authority assigned. See “Program” below for information.	One or more statuses for each program. See “Program Status” below for more information.	The effective date of each program status.	Any comments on a particular program status. See “Status Comments” below for more information.

FORMER NAMES

Former Names:

Any known historical names or aliases associated with the site. If this section is not present, no aliases have been identified.

Report Definitions

Note: Report Field names are shown in bold.

The sites that are contained in this report are:

- 1) All Water Quality Assurance Revolving Fund (WQARF) Registry sites.
- 2) All Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) National Priorities List (NPL) Sites. Note that this list does not include any Preliminary Assessment sites, or sites that have failed to make the NPL. The EPA CERCLIS database tracks those data.
- 3) Active Department of Defense (DOD) Sites.

General Site Information Field Descriptions

Site Name:	The field Site Name contains the official name assigned by the Site Assessment Unit. Asterisks (**) next to the site indicate that it is expected to be renamed.
Latitude:	The field Latitude contains the approximate latitude of the site, represented in Decimal Degrees. Because many of the sites on the list have a significant areal extent, the latitude can only be used to indicate the vicinity of the site. The ADEQ web page has maps showing specific project boundaries for WQARF sites with the status “ON REGISTRY”, and for CERCLA sites with status “ON NPL”.
Longitude:	The field Longitude contains the approximate longitude of the site, represented in Decimal Degrees. Because many of the sites on the list have a significant areal extent, the longitude can only be used to indicate the vicinity of the site.
City:	The field entitled City contains the city in which the site is located.

Program Assignment and Program Status Field Descriptions

A site may be associated with one or more general categories (**Program**) during the life of the site, and assignment is not mutually exclusive. This means that a site may be concurrently assigned to one or more programs. A site will have one or more **Program Status** for each program to which it is assigned.

Program: The field entitled **Program** contains a list of the general categories for sites based on statutory authority assigned. Codes and their definitions are as follows:

Code:	Definition:
CERCLA	Comprehensive Environmental Response, Compensation and Liability Act
DOD	Department of Defense
WQARF	Water Quality Assurance Revolving Fund

Program Status: Each site will have one or more **Program Status** codes indicating the historic and current status with each **Program**. Codes and their descriptions are as follows:

Code:	Definition:
ON REGISTRY	A WQARF Preliminary Investigation that has resulted in inclusion of the site on the WQARF Registry.
ON NPL	The site has been listed on the CERCLA National Priorities List.
ACTIVE	The Department of Defense (DOD) is currently addressing the site.

Status Date: The field entitled **Status Date** indicates the date that a formal **Program Status** was assigned. Within the context of a given **Program**, the current **Program Status** is indicated by the most recent date.

Status Comment: The field entitled **Status Comment** contains any miscellaneous comments on the **Program Status**. For example, when the **Program Status** code "Referred" is used, a comment is given indicating which program accepted the site. It may also be used to document estimated dates.

Former Names Field Description

Note: The absence of this section for any site indicates that the Site Assessment Unit is unaware of any historical names for the site.

Former Names: The field entitled **Former Names** will contain the historical names and aliases that the Site Assessment Unit was able to associate with a site.
