Please summarize your major comments or concerns below (use additional sheet if needed):

Willmore Mfg does not use, nor have they ever used any of the contaminants named in the RIO lawsuit. Many years ago Willmore bought the building from a company that may have been a successor to a company that had a release at this site. However, since that time monitoring wells were installed and monitored monthly. In 1997 we received a "no further

action" letter from ADEQ which
allowed us to complete the purchase
of the building. In 2008 we
completed a Phase 1, on the
building and we applied to
the state and we were allowed
to Cap, Fill in and concrete in
the monitoring wells.

Our company manufactures truck
accessories. We have been in
business since 1989. In these
years in business we have employed
many Phoenix residents. Many
of whom have been with the
company over 10 years. We have
provided education and well
paying jobs. Not one time
have we had any complaints

From any current or former employee.
We pay our taxes and try to
do what's best for the company.
This lawsuit has rendered our
company worthless. This ERA
if approved will bankrupt
our company. My hard working
dedicated employees will suffer.
But, so will my family. And
for what? So RIO can enrich
their company at our expense.
Please do not approve RIO's
ERA. The business climate in
Phoenix is not robust. Can
we really afford to lose tax
paying job providing company's.
I hope your answer is No!
