

COMMENT FORM

To comment on the proposed
Roosevelt Irrigation District's ERA Work Plan for the
West Van Buren Water Quality Assurance Revolving Fund (WQARF) Site

Please provide the following:

Please summarize your major comments or concerns below (use additional sheet if needed):

SRP does not agree that the proposed
ERA is an appropriate response to
the West Van Buren water Quality Assurance
Revolving Fund site. We favor
a process that would include a more
thorough feasibility study that would
likely result in a more cost effective
remedy. (written comments will be
provided)
