

**Central and Camelback Water Quality Assurance Revolving Fund (WQARF) Site
Community Advisory Board (CAB) Meeting**

Monday, March 9, 2009

6:00 p.m.

Arizona Department of Environmental Quality, Room 145
1110 W. Washington, Phoenix

FINAL MINUTES

Ref: PIOU #09-110

CAB members present: Stan Watts, Lynn Morrow, Frank Connell, Peter Zorbas, Jean Schroeder, Pam Perry

CAB members absent: Frank Mendola, Paul Barquinero

ADEQ staff in attendance: Jennifer Edwards Thies, Project Manager; Kevin Snyder, Project Hydrologist; and Wendy Flood, Community Involvement Coordinator

Members of the public present: Vivian Price

The following matters were discussed, considered, or decided at the meeting:

1. Call to Order/Introductions

Mr. Frank Connell welcomed all attendees.

2. Acceptance or Changes to March 9, 2009 meeting minutes

Mr. Lynn Morrow moved to accept the minutes as written. It was seconded by Mr. Stan Watts; motion passed.

3. Fourth Quarter 2008 Discussion by Jennifer Thies, Project Manager

Ms. Thies reviewed the presentation available to all attendees. A map was shown indicating the investigation areas of the site. Ms. Thies reported that the soil vapor extraction (SVE) system removed 1,834 pounds of PCE and the groundwater system removed 267.71 pounds. Ms. Thies reported that the 3rd and 4th quarter reports were received and reviewed but will not be finalized due to budget constraints. Drafts with comments will be placed in the file.

Mr. Connell asked when the CAB could expect to see the summary report. Ms. Thies said it is available now for review, and at a future meeting it could be presented with the comments. Mr. Connell requested the CAB receive copies of the draft reports with the comments. Mr. Mendola requested an executive summary of the reports instead. The CAB requested the summary, the conclusion and the comments the department made regarding the report.

Ms. Thies continued with other events that took place since December 2008. The treatment systems will operate as presently funded. The draft analytical results were presented with the

highest PCE results being in the Texaco well (Colter and Central) and the seconded highest result appearing at CC-11 (Orange and Central). These were consistent with results from last quarter. Discussion was held regarding the system at Colter and Central. The CAB is concerned with results and wanted an update on actions at the corner. Ms. Thies explained how those results could occur and described the water flow in the region.

Ms. Thies continued by pointing out that the irrigation line has been repaired at the treatment system. The treatment system for last quarter was operational 98% of the time and removed 2.30 pounds of VOC and 1.71 pounds of PCE. The system since startup has pumped, treated and discharged 238.6 million gallons of groundwater. Ms. Thies also reported other groundwater system updates.

The SVE system was 98% operational and removed 249.4 pounds of PCE. Since startup 1,834 pounds of PCE has been removed. Charts showing recoveries over time were presented to the CAB regarding soil and groundwater PCE levels. Future activities on the site will include continued operation and maintenance for both systems.

4. Corner Landscape Discussion

The CAB discussed the current landscaping (or lack of) on the corner and near the treatment plant. The CAB voiced opinions and concerns with corner. Pictures of the corner were requested by Ms. Thies to determine the previous look of the property. It was agreed to have the co-chairs construct a letter encompassing members' views. Mr. Morrow moved to have Mr. Connell receive comments from members and draft a letter to the owner of the property. It was seconded by Mr. Zorbas and passed.

5. CAB Co-Chair Discussion and Voting

Mr. Lynn Morrow and Mr. Frank Connell expressed an interest in continuing as co-chairs. Mr. Zorbas moved and Mr. Mendola seconded to have Mr. Morrow and Mr. Connell continue as co-chairs. The motion passed.

6. *Call to the Public

None

7. Next Meeting Date and Agenda Discussion

The CAB decided to meet July 13, 2009 at ADEQ at 6:00 p.m.

8. Adjournment

Mr. Connell adjourned the meeting.
