

## **PUBLIC NOTICE OF PROPOSED SOIL AND GROUNDWATER CLEANUP**

In accordance with Arizona Revised Statutes § 49-1005.H and Title 40 Code of Federal Regulations § 280.67, the Arizona Department of Environmental Quality (ADEQ) is providing notice that a Corrective Action Plan (CAP) has been proposed for the remediation (i.e., cleanup) of soils and groundwater that have been contaminated with petroleum as a result of a leaking Underground Storage Tank (UST) system at the following facility:

LUST File No. 4058.01-.04  
Facility ID No. 0-001519  
Maricopa County

Circle K Store #3744  
630 East Missouri Avenue  
Phoenix, Arizona 85012

Existing soil and groundwater contamination at the referenced site will be remediated using an active soil vapor extraction and air sparge system. During soil vapor extraction, vapors are extracted from the contaminated soils beneath the site and treated above ground, as required by applicable laws. In air sparging, air is injected into contaminated groundwater to volatilize the contaminants, which are recovered and treated at the surface, if required by applicable laws. To evaluate the effectiveness of the systems, periodic monitoring of contamination levels will be required by ADEQ. Once contaminant levels decrease below clean-up standards, the site may be eligible for closure.

A copy of the CAP is available for review during normal business hours at the ADEQ Records and Library Review Area, 1110 W. Washington Street, Ste. 140, Phoenix, AZ 85007 and the Yucca Branch Library. ADEQ encourages public participation in UST corrective actions and welcomes comments on the proposed CAP. Comments should be submitted in writing by May 28, 2004 to ADEQ UST Corrective Action Section, Attention: Pete Townsend, 1110 W. Washington Street, Phoenix, AZ 85007. If sufficient public interest has been demonstrated within 30 days of this notice, ADEQ will announce and hold a public meeting. ADEQ will respond to comments in writing, following the public comment period. For more information on this notice, please call (602) 771-4359 or (800) 234-5677, ext. 4359.
