

SECTOR L CLOSURE CERTIFICATION

for a closed landfill, land application site or open dump not covered under the AZPDES Multi-Sector General Permit

A COMPLETE AND ACCURATE CLOSURE CERTIFICATION FORM MUST BE SUBMITTED TO:
Arizona Department of Environmental Quality; Surface Water Section / Stormwater Program
1110 West Washington, 5415A-1; Phoenix, Arizona 85007
FAX: (602) 771-4528

Use this Certification Statement in lieu of filing an NOI and NOT for closed Sector L facilities that never received coverage under the MSGP 2000 or MSGP 2010. An inactive, closed or capped landfill, land application site or open dump ceases being an industrial activity and is no longer subject to stormwater permitting requirements when the land use has been altered such that there is no exposure of significant materials to stormwater at the site. This could be accomplished in such ways as installing a surface cover that prevents stormwater from coming into contact with waste materials and discharging to waters of the U.S. (such as a parking lot or shopping center), or by closing and capping the landfill in accordance with RCRA Subtitle D requirements in 40 CFR Part 258.

A. FACILITY OPERATOR INFORMATION

Operator Name: _____ Phone: _____
E-mail: _____ Fax: _____
Business Name: _____
Mailing Address: _____

City: _____ State: |____|____| Zip Code: _____

B. FACILITY/SITE LOCATION INFORMATION

Facility Name: _____
Facility address or site physical location: _____

City: _____ State: |____|____| Zip Code: _____
County: _____ ADEQ Solid Waste Permit No. _____

C. CERTIFIER NAME AND TITLE

I certify under penalty of law that stormwater discharges from the area are no longer associated with the previous landfill activity and that the only runoff is non-contaminated stormwater in accordance with Part 8.L.4.5 of the Non-mining MSGP 2010. There are no discharges of stormwater contaminated by exposure to industrial activities or materials from the subject landfill, land application site or open dump identified in this Certification Statement. I understand that ADEQ retains the authority to revoke this certification (and require authorization under an individual permit or alternative AZPDES permit) if it determines there is a discharge that causes, has a reasonable potential to cause, or contribute to an exceedance of an applicable water quality standard, including designated uses.

I further certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. I have read and understand the eligibility requirements for declaring the subject landfill, land application site or open dump is no longer subject to the requirements of the Multi-Sector General Permit.
