

Reclaimed Water Stakeholder Issues Matrix

Topic	Comment
Conveyances / Infrastructure	Need to have cross connection control
Conveyances / Infrastructure	Technical standards: More comprehensive criteria for design, construction, O&M
End Uses and Standards	Uses are too limited; need more
End Uses and Standards	Monitoring requirements don't match the monitoring requirements under an APP
End Uses and Standards	Are new reclaimed water quality classes needed?
End Uses and Standards	Are constituents for monitoring, numerical limits, and monitoring frequencies appropriate for the five reclaimed water quality classes to ensure public health protection and safe water quality for the allowed end uses?
End Uses and Standards	Add recharge to the list of allowed uses, but exempt it from reclaimed water end use permits because recharge is permitted under APP.
Gray Water	Need general permit for non-irrigation uses
Gray Water	Review conditions of use for private residential gray water for clarity and fitness.
Gray Water	Develop more appropriate general permits for non-residential use of gray water.
Other	No criteria for operators of reclaimed water distribution systems
Permitting	Requirements for cross-connection control
Permitting	Review signage requirements for appropriateness and update as needed
Permitting	No process to amend permits
Permitting	Review permit renewal periods
Permitting	Should the Class A+ permit be redesignated from a Type 2 permit to a Type 1 permit?
Permitting	Should the Blending Facility Permit be abolished?
Permitting	Should the Agent Permit be changed to a Reclaimed Water Distribution System permit and required for pipeline distribution systems of reclaimed water.

WHAT DO THE CATEGORIES MEAN?

Conveyances/Infrastructure includes requirements for pipeline and open water structures that carry reclaimed water

End Uses & Standards includes the water quality standards for reclaimed water and the corresponding list of allowed end uses.

Gray Water includes usage and permitting requirements for private residential use and non-residential use of gray water

Other is miscellaneous for anything that doesn't fit into the other categories

Permitting includes the types of permits, permitting process, and permit requirements for the end use of reclaimed water
