

List of Figures

Page	Figure	
8	1	Class I Area Visibility Network
92	2	Eight-Hour Maximum Carbon Monoxide Concentrations at Central Phoenix (CPHX) with the Number of Exceedances at CPHX and in the Entire Network
92	3	Eight-hour Carbon Monoxide Maxima at 22nd Street and Alvernon Way in Tucson
93	4	Maximum One-Hour Ozone Concentrations in Phoenix, Tucson, and Yuma
94	5	Tucson Long-Term Trends in the Fourth Highest Eight-Hour Ozone Concentrations at Two Sites
94	6	Tucson Long-Term Trends in the Fourth Highest Eight-Hour Ozone Concentrations at Two Additional Sites
96	7	Three-Year Averages of the Fourth-Highest Eight-Hour Ozone Concentrations in Phoenix and Environs
98	8	Annual PM ₁₀ Concentrations at Four Sites in Greater Phoenix
98	9	Annual PM ₁₀ Concentrations at Four Additional Sites in Greater Phoenix
99	10	Annual PM ₁₀ Concentrations in Tucson
100	11	Annual PM ₁₀ Concentrations at the Higher Concentration Sites in Arizona
101	12	Annual PM ₁₀ Concentrations at Lower Concentration Sites at Lower Elevations
101	13	Annual PM ₁₀ Concentrations at Low Concentration Sites at Higher Elevations
104	14	Statewide Annual PM _{2.5} Concentrations
104	15	Annual PM _{2.5} Concentrations in Tucson
104	16	Annual PM _{2.5} Concentrations in Phoenix
106	17	Light Extinction Trends in Phoenix
106	18	Light Extinction Trends in Tucson
107	19	Seasonal Patterns of Hourly Light Extinction in Tucson and Phoenix: 1993-1998
