

**0103.000 MAJOR SOURCE NEW SOURCE REVIEW PERMIT NOTIFICATION TO  
FEDERAL LAND MANAGERS POLICY**

**Level Three**      **Permits Section**  
                         **Air Quality Division**

**Originator:**      Prabhat Bhargava

**Contact For**  
**Information:**      Prabhat Bhargava

**Issue Date:**      June 5, 1996

**Next Scheduled Review Date:**      June 5, 1996

**PURPOSE**

The purpose of this policy is to facilitate the participation of the federal land managers and the U.S. Fish and Wildlife Service in certain permitting processes. These agencies have concerns that need to be addressed in air quality permits.

**POLICY**

The Arizona Administrative Code requires Arizona Department of Environmental Quality to notify federal land managers (National Park Service and U.S. Department of Agriculture Regional Forester) of all major source or major modifications to major source permit applications early in the permitting process to provide them sufficient time to analyze these applications and provide their input. The U.S. Fish and Wildlife Service should also be notified.

**RESPONSIBILITY**

Responsibility for enforcement of this policy lies with the individual Air Quality Division permit engineer assigned to process the application.

**PROCEDURES**

Please make sure you take the following steps to process all new source review Prevention of Significant Deterioration (PSD) and Non-Attainment Area (NAA) permit applications:

1. Invite federal land managers and U.S. Fish and Wildlife Service personnel to all meetings including pre-application meetings.
2. Require permit applicant to send one copy of the application and a courtesy copy of all additional correspondence to both federal land managers and the U.S. Fish and Wildlife Service.
3. Review and incorporate comments of federal land managers

and the U.S. Fish and Wildlife Service in the permits.

4. Send a copy of the proposed and final permit to federal land managers and the U.S. Fish and Wildlife Service.

In addition, the appropriate federal land manager must be notified when any minor modification of a major source occurs within 10 km of a federal Class I area. ADEQ shall submit a copy of the notification to the appropriate federal land manager and to the U.S. Environmental Protection Agency Region IX (Attn: NSS A-5-1), 75 Hawthorne Street, San Francisco, CA 94105.
