

Maricopa County
Air Quality Department

HIGH POLLUTION ADVISORY

EFFECTIVE: Saturday, Dec. 26 and Sunday, Dec. 27

The Arizona Department of Environmental Quality is issuing a High Pollution Advisory (HPA) Saturday, Dec. 26 and Sunday, Dec. 27 for Particulate Matter-2.5.

The HPA is being issued because PM-2.5 concentrations rose considerably after 5 p.m. Thursday, fueled in large part because of burning wood in fireplaces, and continued through the night. The air quality readings at one West Phoenix monitor exceeded the health standard and several other monitors had readings high in the “moderate” category. Air quality readings on Christmas morning showed little to no improvement and several monitors could record exceedances today.

The Maricopa County Air Quality Department issued a “No Burn Day” restriction for Friday, which will continue through Saturday and Sunday during the HPA. Residents and businesses must refrain from burning activity. This restriction includes individuals and businesses that have burn permits for open burning.

ADEQ recommends that children and adults with respiratory problems avoid outdoor activities on Saturday and Sunday and suggests that the general public limit outdoor activity throughout the two days.

“Air pollution doesn't take a holiday so it's up to all of us to take care and clear the air by burning less,” said ADEQ Director Benjamin H. Grumbles.

The Maricopa County Trip Reduction program and Valley Metro Business Services request employers activate their HPA Plan. Residents and employers are asked to use these tips to help make the air healthier to breathe:

- Eliminate fireplace and wood stove use.
- Drive as little as possible: car pool, use public transit or telecommute. For information on transportation alternatives, visit Valley Metro: www.valleymetro.org.
- Avoid using gas-powered lawn and garden equipment.
- Avoid activities that generate dust, such as driving on dirt roads.
- Stabilize loose soils.

PARTICULATE MATTER BACKGROUND: State and county agencies measure PM-10 and PM-2.5, which are extremely small solid particles and liquid droplets found circulating in the air. PM, or particulate matter, comes from either combustion (cars, industry, woodburning) or dust stirred up into the air. High levels of PM are typically created when the air is especially stagnant or especially windy. PM-10 stands for particulate matter measuring 10 microns or less. PM-2.5 stands for particulate matter measuring 2.5 microns or less. To put this in perspective, one strand of human hair is 70-100 microns in size.

WHO'S WHO?

The **Arizona Department of Environmental Quality [ADEQ]** provides a daily forecast for air quality. When conditions exist, ADEQ will issue high pollution advisories, health watches and alerts. Daily air quality forecasts are on ADEQ's Web site at www.azdeq.gov/environ/air/ozone/ensemble.pdf or by calling (602)771-2367. Those interested in receiving the air quality forecast via email can subscribe to ADEQ's forecast list at www.azdeq.gov/subscribe.html and text alerts at www.azdeq.gov/sms.html

The **Maricopa County Air Quality Department** issues No Burn Day restrictions based on a High Pollution Advisory or Health Watch. These No Burn Day restrictions typically occur during the winter months. To find out if any burn restrictions are in place, call 602-506-6400 or visit www.cleanairmakemore.com . Information is given in both English and Spanish.

To learn more about the Maricopa County residential woodburning restriction ordinance, view a copy on our website www.maricopa.gov/aq. Click on the direct link to the residential woodburning restriction ordinance: http://www.maricopa.gov/aq/divisions/planning_analysis/rules/docs/rwro9911.pdf

Valley Metro/RPTA provides eco-friendly public transit options to residents of greater Phoenix and Maricopa County, including a clean-fuel bus fleet, low-emissions light rail, online carpool matching and bus trip mapping, and bicycle and telecommuting assistance. Funding is provided by local, state and federal revenues and administered by a board of 15 governments working to improve and regionalize the public transit system. www.ValleyMetro.org
