

HIGH POLLUTION ADVISORY

The Arizona Department of Environmental Quality is issuing a High Pollution Advisory (HPA) for Sunday, April 3 for coarse particulate matter [PM-10].

This HPA is being issued because anticipated high winds from a front moving through the area on Sunday are expected to generate large amounts of dust.

In an effort to reduce blowing dust, businesses and residents are asked to stabilize loose dirt on their property. Off-highway vehicle use will be prohibited within areas of Maricopa County during the HPA.

This HPA also includes the following restrictions:

- Residents and businesses must refrain from burning wood in fireplaces, woodstoves or outdoor fire pits. This restriction includes individuals and businesses who have burn permits for open burning.
- Contractors cannot use leaf blowers on governmental properties on HPA days.
- Off-highway vehicles are prohibited from being used during a PM-10 HPA.

ADEQ recommends that children and adults with respiratory problems avoid outdoor activities on Sunday and suggests the general public limit outdoor activity throughout the day.

Valley Metro requests employers activate their HPA Plan. Residents and employers are asked to use these tips to help make the air healthier to breathe:

- Eliminate wood burning in fireplaces, stoves, chimineas and outdoor fire pits.
- Drive as little as possible: car pool, use public transit or telecommute. For information on transportation alternatives, visit Valley Metro: www.valleymetro.org.
- Avoid using leaf blowers.
- Avoid activities that generate dust, such as driving on dirt roads.
- To learn more about the air you're breathing, visit: www.CleanAirMakeMore.com

PARTICULATE MATTER BACKGROUND: State and county agencies measure PM-10 and PM-2.5 which are extremely small solid particles and liquid droplets found circulating in the air. PM, or particulate matter, comes from either combustion (cars, industry, woodburning) or dust stirred up into the air. High levels of PM are typically created when the air is especially stagnant or especially windy.

PM-10 stands for particulate matter measuring 10 microns or less. PM-2.5 stands for particulate matter measuring 2.5 microns or less. To put this in perspective, one strand of human hair is 70-100 microns in size.

WHO'S WHO?

The **Arizona Department of Environmental Quality [ADEQ]** provides a daily forecast for air quality. When conditions exist, ADEQ will issue high pollution advisories or health watches. Please visit www.azdeq.gov/environ/air/ozone/ensemble.pdf or call (602) 771-2367. To receive the air quality forecast via email and/or text message please visit www.azdeq.gov/subscribe.html

The **Maricopa County Air Quality Department** issues No Burn Day restrictions based on a high pollution advisory or health watch. These No Burn Day restrictions typically occur during the winter months. To find out if any burn restrictions are in place, call (602) 506-6400 or visit www.cleanairmakemore.com. Information is given in both English and Spanish. You may report an air quality problem or polluter on our website or by calling (602) 372-2703.

To learn more about the Maricopa County residential woodburning restriction ordinance, view a copy on our website www.maricopa.gov/aq. Click on the direct link to the residential woodburning restriction ordinance:

Valley Metro/RPTA provides eco-friendly public transit options to residents of greater Phoenix and Maricopa County, including a clean-fuel bus fleet, low-emissions light rail, online carpool matching and bus trip mapping, and bicycle and telework assistance. Funding is provided by local, state and federal revenues; and administered by a board of 16 governments working to improve and regionalize the public transit system. www.ValleyMetro.org
