

Clean Power Plan Technical Work Group

A technical working group, comprised of both impacted and knowledgeable stakeholders, has been assembled to better understand the impact that EPA's final rule has on Arizona and to help document the technical decisions that ADEQ makes in support of its initial response. Representatives from the following organizations or areas of expertise include:

- Arizona Corporation Commission
- Arizona DOA Energy Office
- Arizona Electric Power Cooperative
- Arizona Public Service
- Arizona State University
- Environmental Defense Fund
- Freeport McMoRan
- Residential Utility Consumer Office
- Salt River Project
- South West Energy Efficiency Project
- South Western Power Group
- Sun Devil Power Holdings
- The Ormond Group LLC
- Tri State Energy
- Tucson Electric Power
