

WQARF Registry

The sites that are currently being addressed by the State of Arizona Water Quality Assurance Revolving Fund (WQARF) program are listed on the WQARF Registry. Sites are scored and placed on the Registry using an approved eligibility and evaluation (E&E) model for evaluating risk and other environmental factors. The Registry is updated as sites are added or cleaned up. The information provided includes the E&E score (out of a possible total score of 120), the site name, the city and county where the site is located, and the date the site was added to the Registry.

There are currently 33 sites on the Registry.

| Site Name | City | County | Date Added to Registry | E&E Score |
