Re: Letter of Concurrence with CH2M Hill April 27, 2012 Comment Letter  
West Van Buren WQARF Site  
Roosevelt Irrigation District Health Exposure Assessment and Mitigation Summary  
prepared by Synergy Environmental, LLC, dated September 16, 2011

Dear Director Darwin:

Geosyntec Consultants, Inc. (Geosyntec), on behalf of Prudential Overall Supply is submitting this letter of concurrence to the above referenced April 27, 2012 comment letter submitted by CH2M Hill on behalf of Honeywell International, Inc. Geosyntec has also reviewed the September 16, 2011 Roosevelt Irrigation District Public Health Exposure Assessment and Mitigation Summary prepared by Synergy Environmental, LLC. Our comments and concerns mirror those General and Specific comments presented by CH2M Hill.

Prudential Overall Supply's concern is that public health risks, both current and future, be appropriately evaluated following U.S. Environmental Protection Agency (EPA), Arizona Department of Environmental Quality (ADEQ) and Arizona Department of Health Services (ADHS) risk assessment guidance. Prudential Overall Supply urges ADEQ to review the General and Specific comments provided by Dr. Loren Lund, Principal Technologist, Human Health Risk Assessment Leader, CH2M Hill and incorporate those comments and concerns into any risk communication publically presented or supported by ADEQ.

Prudential Overall Supply thanks you for this opportunity to comment on this important issue.

Sincerely,  
Geosyntec Consultants, Inc.

A handwritten signature in blue ink, appearing to read "Bruce C. Travers".

Bruce C. Travers, R.G.  
Principal Hydrogeologist
