Footnotes

1. MSWLF represents municipal solid waste landfill; CDLF represents construction debris landfill; PSWLF represents private solid waste landfill. A PSWLF does not accept waste from outside parties.
2. Tipping fee figures are from *Solid Waste Digest: Western Edition*; Chartwell Information Publishers, Volume 10, number 2, February 2000.
3. Tonnage was determined using payments received from landfill owners of \$0.25/ton. Missing payments were estimated by comparing payments from other quarters of FY 1999 to equivalent quarters from past years.

4. An active landfill is open and accepting materials.
5. N/A means not applicable.
6. An inactive landfill is no longer accepting materials but has not officially completed the closure process.
7. A closed landfill is no longer accepting materials and has completed the closure process.
