

## Acknowledgments

Numerous agencies, companies, individuals and organizations have collected the ambient air quality monitoring data presented in this report. The Arizona Department of Environmental Quality (ADEQ) publishes data from these various sources to provide as complete of a picture as possible of air quality conditions throughout Arizona and gratefully acknowledges the efforts of all involved. Generally, ambient data presented in this report are collected, processed and reported following U.S. Environmental Protection Agency (EPA) policies and procedures. Air quality data that ADEQ staff and contract operators collect have also receive internal and external quality control and assurance checks, including more rigorous data verification that ADEQ has, in part, implemented. Data provided by other sources have been checked by the responsible organization but not by ADEQ.

Both private individuals and companies under contract to ADEQ provided invaluable field sampler operation and data processing services in support of monitoring activities during 2000. Their efforts are appreciated, as they maneuver on rooftops and metal towers to operate ADEQ monitoring equipment in uncomfortable weather conditions, or review instrument performance and ambient monitoring data for technical accuracy. Field staff from other public agencies also operate numerous ambient monitoring sites in Arizona, providing spatial resolution and temporal coverage of air quality conditions statewide. ADEQ recognizes the efforts of these other monitoring and reporting agencies, and appreciates the opportunity to publish their data. Several industrial facilities collect and report ambient air quality data to ADEQ, usually to satisfy a permit requirement; their efforts are also acknowledged. Finally, ADEQ staff work daily installing, calibrating, maintaining, conducting quality control checks, collecting, processing, performing quality assurance tests and reporting data from a wide variety of ambient air monitoring instruments. ADEQ management wishes to thank these staff members for their dedication to maintaining and improving the quality of our program.
